

Brian Webberley

Portmarnock, Co. Dublin | Mob: 086 392 7014

Email: brian@bweb.ie | www.bweb.ie | vCard: bweb.ie/downloads.html | LinkedIn: tinyurl.com/kqvgakr

Adaptable and client focused web developer, eager to utilise advanced technologies to improve website efficiency, such as speed, responsiveness, and accessibility, while improving user experience and saving costs.

TECHNOLOGIES PROFICIENT IN

Web Technologies: HTML5, CSS, SCSS, JavaScript, AngularJS, Angular2+, jQuery, Bootstrap, Git (GitHub and Bitbucket), Contentful (headless, API based CMS), Jasmine test framework, Karma test runner, Angular CLI.

Applications: Adobe: Illustrator, Photoshop, Dreamweaver, InDesign. Google: Webmaster Tools, Analytics
Microsoft: Visual Studio, Dynamics Nav, Office (including Excel Power Pivot). Mock-up Tools: Invision, Figma

CAREER & ACHIEVEMENTS

Aug '13 – Present:

Web Development – Freelance Work

- Created woodconcepts.ie – a static site developed with Angular 2, Bootstrap, and ng-Bootstrap. It uses an API driven, 'headless' CMS, provided by Contentful.com . Currently being updated.
- Created Almax.ie (painting and decorating company), HeritageMasonry.com.au (Stonemasons), and MossHouse.ie (guest house) - developed like my portfolio website; BWeb.ie, using Angular JS partials
- Site design methodologies and strategies are explained on my portfolio website: BWeb.ie
- All projects included requirements gathering, wire framing, branding and product /service promotion

Consultancy work, including leading new software implementations and user training, mostly in Microsoft Dynamics Nav for **Wood Concepts** (Largest Irish supplier of wood-based products to the timber trade. Supply chain covering South America, Asia, Europe and Russia to the Irish construction trade industry)

June '05 – August '13: I.T. Manager / Systems Implementer, Wood Concepts

- Analysed business requirements and worked with Microsoft partners to migrate a stock control, purchase, sales and distribution and logistics system previously run in Excel, along with a finance package previously run in Sage 200, and a CRM system previously run in Microsoft Outlook to a new ERP system; Microsoft Dynamics Nav.
- Recommended numerous Dynamics Nav enhancements and worked with developers from requirements stage to implementation, utilising Agile methodologies (by either sending business & functional requirements to suppliers or making my own changes to the interface or to reports)
- Identified business processes that technology could enhance, including working with suppliers to:
 - Move backups from solely in-house to in-house and cloud-based storage
 - Migrate emails from an Exchange Server to Office 365
 - Implement an EDI system for invoices, configuring an SMTP server for sending documents
- Maintained all computer systems and servers, PCs, network devices (LAN & WAN to remote office), LAN printers, phone systems (PBX office system & mobiles), and audio/ visual equipment
- Replaced manual driven reports in Excel spreadsheets with reports driven by a direct connection to an SQL server database (using Excel, Crystal Reports, and SQL Server Reporter).
- Trained and offered technical support to staff (mainly with Microsoft Office applications and Nav), along with the creation of technical software manuals
- Purchased I.T. equipment & service-based solutions

- Backed-up and restored files from onsite files (using ARCserve) and offsite files (using KeepITSafe)
- Supported sales team with online and offline marketing tools (e.g. flyers, emails using Mail Chimp, website updates & promotions using Adobe suites). Analysed customer activity on sales emails.

February '05 – June '05: IT Helpdesk Assistant, National College of Ireland (Contract position)

- Responsible for administration of student and staff servers
- Fixed and maintained PCs & peripherals
- Offered advice and assistance to students with any I.T. issues
- Windows updates & upgrades

Jan' 05 – February '05: Accounts Clerk, Eircom (Contract position)

- Responsible for the cancellation and modification of orders and accounts
- Reported figures on a weekly basis
- Assisted Customer Services, Sales and Credit Control teams with billing and cancellations queries

June '04 – Jan' 05: Technical Support Agent, Client Logic on behalf of British Telecom

- Solved customers' internet connection, settings, and setup problems
- Advised on general internet queries
- Liaised with management in relation to system performance and issues

July '00 – Sept '03:

Customer Service Rep at America's Dog (Chicago), Xtra-vision, and Dunnes Stores.

Warehouse Operative at Argos (All during college)
